

IT'S OK TO GET ATTACHED

For a more permanent and secure table solution, consider a wall-mounted cantilever base or a bolt-down post base.

While we're famous for our products featuring stabilising technology, we can do a lot more than that. When our customers told us that they need different table options to support their varying concepts, we listened. Our cantilever and bolt-

down bases provide stable dining options with the quality that you would expect from FLAT®.

Unlike other products in the market, our cantilever bases have been designed to be flat-packed, saving our customers shipping space and cost as well as reducing packaging.

Our bolt-down base is also available with our height-adjustable post to provide great flexibility to locations with fixed dining arrangements. Both sets of bases provide the ability to cater for customers with accessibility requirements.

Why not let us be your table base provider of choice and let us know what we can do for you?

EFFICIENT

Cantilever bases come in unique FLAT pack packaging to save shipping space, cost, and packaging.

BUILT TOUGH

FLAT's cantilever bases are constructed of high-quality, industrial-strength steel.

PIN LEG

Recommended to accompany several models, the pin leg provides added support to your tables when utilising larger or heavier table tops.

*WARNING: Exceeding maximum recommended table top size and weight will reduce functionality and performance of the technology. See Table Top Size Guide for more info or consult with your FLAT representative for further information or alternative configurations.

FLAT® BOLT-DOWN MODELS

Ideal for locations with fixed seating arrangements.

Bolt these bases into the floor for a stable footing. Combine multiple bases for larger table tops and creating compliant seating arrangements for customers with accessibility requirements.

All cantilever and bolt down bases are made from steel and are protected with a black, textured powder coat. Our 'Heavy-Duty' versions of our bolt-down base are zinc coated and support larger table tops.
